

## **The Albers Group LLC**

**John Albers Col USMC  
(Ret) '90 | President/CEO**

#1 Company | 321.829%

**John Albers '90 fundamentally believes that every person is unique and that we all have a role and an impact to make in our sphere. And making an impact is something this Aggie has done, in more ways than one.**

**Now a retired Marine Corps Colonel, Albers' military career first began during his time in the Corps of Cadets. After graduating from Texas A&M, he went on to the United States Naval Test Pilot School and ultimately served as an officer in the Marine Corps for 24 years.**

**Leveraging his military experience and expertise, Albers retired and founded The Albers Group, which is in the business of inspiring others and delivering value through systems engineering, machining, and other highly-specialized engineering services. Founded in 2014, the company has experienced significant growth and now operates in 14 states.**

**Albers and his team, many of which are also Texas A&M former students, have now achieved the ultimate level of Aggie success by being recognized as the top company in this year's Aggie 100. Albers said his team and also his faith have played a major role and anchored him through all of the ups and downs that come with being an executive and a business owner. "To receive such a prestigious award from...my alma mater Texas A&M is something that I probably can't adequately express...I can't tell you how grateful I am to Texas A&M for the honor [and] to my team for taking a hold of my vision and running with it and doing a better job than I could have frankly."**
